The story of our teas over 150+ years

Finding our foundation in a rich history of tea and nearly two centuries of traditions, our teas speak the universal language of quality and flavour.

Our journey of handpicking, manufacturing and blending the finest of teas has been an eventful one.

Our estates: a story of 42 evergreen tea gardens :
With 33 estates across India, 3 in Vietnam and 6 in Uganda, we work tirelessly to bring to you the world's finest in your cup.

Spiced Orange

Rich in vitamins, this brew blends in sweet notes of cinnamon & citrusy notes of orange.

Flavour: Bright and spicy with citrusy undertones

Time of Day: All Day

Health Benefits: Improve your heart health and keep your blood sugar levels in check.

Healthy Mind

An uplifting brew that fuses sweet and floral flavours with herbal notes.

Flavour: Herbal with a natural sweetness & floral notes

Time of Day: All Day

Health Benefits: Boost your memory & reduce stress and anxiety.

Hot Tea

1. Begin with fresh, cold, filtered water. It should ideally be used with a non-reactive vessel, such as a glass kettle or stainless-steel pot, so as to prevent impurities from transferring to the tea
2. Green tea should always be prepared with water heated to about 80-90°C (176-194°F)
3. Warming the pot ensures that the steep will be consistent. Pour a small amount of hot water into the pot or cup, swirl it around, and pour it out to warm your cup/pot
4. As a general rule, take one teaspoon (2g) of Green Tea per 180 ml (6 fl oz) of water
5. Steeping time is very much a matter of personal preference and taste when it comes to a cup of Green Tea. Most recommend steeping the brew for three to four minutes
6. Serve as is, with sweetener (honey) to taste

Our range of Matcha Teas

Sourced from the finest prefectures of Shizuoka, Japan, our Matchas offer a sustainable energy high over coffee.
